BIOGRAPHY

Chris brings more than 14 years of industry experience as a professional consultant, project manager, and estimator. He provides professional consulting services for clients and colleagues including adjusters, insureds, contractors, engineers, and PAs, and adds value to every file. He is an IICRC Master Restorer, has experience in all areas of restoration and is a licensed drone pilot. His expert deliverables include fee budgets, ROM's, identifying scope of work, providing estimates, reviewing costs, and providing narrative reports.

Chris is experienced in leading large loss files and has experience in providing expert testimony. He is detail-oriented and confidently assists clients from conception to close of file.
