BIOGRAPHY

Peter is a Certified Occupational Hygienist (COH)[®] and has 20+ years' practical experience working in Occupational Hygiene and allied health roles across Australia and New Zealand. Peter's personable communication and delivery skills, combined with extensive field experience, enable him to deliver clear and concise risk messaging and advice to all levels of stakeholders - insurers, loss adjusters, client management teams, unions, workers, and general members of the public.

Peter's career includes roles spanning both consulting and corporate hygiene work, in mining, oil & gas, defence, public health, construction and manufacturing industries, commonwealth, and local government projects. This broad experience enables him to provide clients, industries and business groups with comprehensive and practical guidance advice on management of health risks, exposure control management, and delivery of general health & hygiene programs. He is Certified Full Member of the Australian Institute of Occupational Hygienists (MAIOH) and is a Full Member of the New Zealand Occupational Hygiene Society (MNZOHS), and registered HASANZ professional.

QUALIFICATIONS
