### SPECIALTIES

- Asbestos Surveys
- Asbestos Abatement Oversight
- Air Monitoring
- Lead Paint Sampling - XRF and Chip
- Lead Abatement/ Stabilization Oversight
- Mold Sampling, Swab, Tape, Air
- Infection Control Risk Assessments
- Airborne Asbestos Fiber Counting via PCM Analysis using NIOSH Method 7400
- Thermal Imaging Interpretation and Analysis
- Moisture Mapping
- Phase I Environmental Site Recon Assessments
- Petroleum Byproduct Sampling
- Ground Water Quality Testing
- Surface Water Sampling
- Soil Sampling and Testing
- Sorbent tube application and collection
- Mercury Vapor Sampling

### BIOGRAPHY

Dustin has more than 10 years of industry experience in environmental and industrial hygiene investigations, assessments and sampling. He has extensive experience in the assessment of indoor air quality, water damage, mold damage, bacteria, asbestos, lead, combustion byproducts, VOC's, soil, water and petroleum byproducts. He has participated in numerous large, complex losses, providing clients with timely and cost-efficient services in response to their specific project needs. Proficient in the use of Photo Ionization Detectors (PID's), Gas Chromatographers, Aerosol Monitors, Thermal Imagery and Moisture Measuring equipment.

### INDUSTRY CERTIFICATIONS, LICENSES, TRAINING, AND MEMBERSHIPS

- Missouri Licensed Asbestos Inspector
- Illinois Licensed Asbestos Inspector
- Florida Certified Asbestos Inspector
- AHERA Asbestos Building Inspector
- AHERA Asbestos Contractor/Supervisor
- EPA Lead Inspector
- EPA Lead Risk Assessor
- ICRA 2.0 Certified

## DUSTIN WOOD

ENVIRONMENTAL CONSULTANT, HALLIWELL ENVIRONMENTAL SERVICES

- OSHA 40 Hour HAZWOPER (Hazardous Waste Operations and Emergency Response)
- OSHA 30 Hour Construction Safety and Health
- NIOSH 582 (PCM Analysis)
- Red Cross CPR/First Aid/AED Certified

### PROFESSIONAL EXPERIENCE

- Halliwell, Environmental Consultant, Halliwell Environmental Services
- American Environmental Group, Environmental Technician
- Professional Environmental Engineers, Environmental Technician

### REPRESENTATIVE ASSIGNMENTS

**Moisture Mapping/Water Damage Assessments | Bluegreen Resorts | St. Petersburg, FL**  
Moisture mapping of damaged building materials and structures.

**Fire Response | Weston Solutions | Lahaina, HI (Maui Island)**

EPA-START representative for the fire response in Maui. HHW Hazardous Household Waste identification and removal. Overseeing the ERRS contractors in the removal of metal roofs from remnant structures. Identification and tagging of burned EV/Hybrid vehicles for battery removal, also assisted in the battery cell de-energizing process. Water Sampling of flooded underground parking garages.

**Pipeline Rupture | TC Energy, Burns and McDonnell | Washington, KS**

Oil transport pipeline had ruptured and sent millions of gallons of product into nearby creek and surrounding area. Creek was diverted for roughly four miles to allow for excavation of contaminated soil. The area surrounding ground zero was excavated as well. Performed soil sampling of the creek bed and excavation areas to ensure all contaminants were properly removed. Performed surface water testing when excavations were completed and water being redirected into creek again. Took samples of contaminated dirt piles and oily waste bins being used to collect materials used in the cleanup process. Took water samples at water treatment facility when it was in operation to ensure water being diverted was not contaminated.

**Oil Cleanup | Ameren, Burns and McDonnell | Litchfield, IL**

Performed daily, live air monitoring of site during oil cleanup operations. UST had leaked an unknown volume of product into soil and sewer system. Ensured dust and VOC levels remained below PEL. Equipment used for monitoring, MiniRae PID, DustTrak, Nanova GC, Sorbent tubes.

**Water Damage Remediation | Ferrell Hospital | El Dorado, IL**

On-site hygienist during remediation process, performing air clearances and ensuring activities follow established remediation protocol as well as ICRA protocol and regulations.

**Monitoring Well Oversight | Cape Girardeau, MO**

# HALLIWELL

## DUSTIN WOOD

ENVIRONMENTAL CONSULTANT, HALLIWELL ENVIRONMENTAL SERVICES

Supervised the installation of monitoring wells using a Geoprobe. Performed soil sampling/testing to check for contaminated soil and ground water sampling to check for contamination within the water table.

### **Lead Stabilization Oversight | U.S. Post Offices | Illinois, Minnesota, Indiana**

Lead paint stabilization oversight in multiple United States Post Offices.

### **Asbestos Abatement Oversight | St. Louis City Hall | St. Louis, MO**

Asbestos abatement oversight and air monitoring for ACM floor tile removal in Alderman's Chambers.

### **Mercury Vapor Testing | Diocese of Trenton | New Jersey**

Performed mercury vapor testing on gymnasium flooring at various locations in New Jersey.

### **Hurricane Ian CAT operations | Ft Myers, FL**

CAT operations in the aftermath of Hurricane Ian. Performed moisture mapping of affected residences and businesses. Took asbestos and mold samples as needed. Worked with insurance companies and contractors in providing scope of work for repairs.

### **Hurricane Ida CAT operations | New Orleans, LA**

CAT operations in the aftermath of Hurricane Ida. Performed moisture mapping of affected residences and businesses. Performed mold sampling, air sampling, final clearances.

### **Winter Storm CAT operations | Dallas, TX**

Cleanup Operations In February, severe winter storms affected multiple areas of Texas. Water lines had burst due to the unexpected freeze and caused extensive water damage to residences and businesses. Performed moisture mapping services, mold sampling, air sampling, final clearances. Worked with insurance companies and contractors in providing scope of work for repairs.
